About Me

Passionate UX/UI Designer combining human-centred design with a solid technical foundation. I just completed my M.Sc. in Media Informatics (focus on UX, HCI & Frontend Development) at LMU Munich. I worked for almost 4 years as a UX Designer at MVTec on computer vision and deep learning software and Media -/ Communication Designer at Ströer. My background spans academic HCI research and corporate product , UX & media design.

Education

- 04/2024 - 10/2026 **Ludwig Maximilian University of Munich – M.Sc. Media Informatics with Media Design**
- 02/2025 - 06/2025 University of Technology Sydney (UTS) – Semester Abroad 2 (with PROSA scholarship)
- 10/2020 - 04/2024 Ludwig Maximilian University of Munich – B.Sc. Media Informatics with Media Design
- 02/2023 - 06/2023 University of Technology Sydney (UTS) – Semester Abroad 1
- 09/2012 - 06/2020 High School Degree – Luitpold Gymnasium Wasserburg am Inn

Work Experience

12/2025 - 10/2026 **Working Student UX / UI Design – MVTec Software GmbH Munich**

- Contribute to UX and UI design of new components for industrial computer vision software
- Redesign iterations (interactive prototyping, stylesguides, user research) using different tools to improve clarity and efficiency (mainly using Figma & AI tools)
- Collaboration with developers and product managers to align designs with technical constraints and user needs

03/2022 - 01/2025 **Working Student Media, Communaction & Graphic Design - Ströer SE & Co. KGaA**

- Designed and produced audience-focused multimedia content for Ströer's digital public displays, part of a network engaging roughly 80 % of the German population weekly
- Produced motion graphics and video materials with Adobe Creative Cloud (mainly AE)
- Supported UX research and visual storytelling to enhance engagement in digital advertising campaigns

Academic Experience

11/2025 - 10/2026 **Master Thesis – AI Content Generation for Public Security User Interfaces**

- Creation of an user focused, automated AI comic generation framework for IT security content on public displays
- Complex user study followed by both a quantitative and an in-depth inductive thematic analysis

02/2025 - 06/2025 **Interaction Design Studio (UX) – University of Technology Sydney**

- User testing, heuristic evaluation, field study, wireframing, prototyping of our own app product idea

02/2025 - 03/2025 **Experience Design Internship – Ludwig Maximilian University of Munich – Published in Paper, CHI'26**

- Designed and evaluated experience patterns, storyboards, and state charts for interaction design research
- Built a physical prototypes and created an In-action design video to visualize user interactions

03/2024 - 03/2026 **LMU Buddy Program Volunteer – Ludwig Maximilian University of Munich**

04/2024 - 05/2024 **Usable Security Internship – Ludwig Maximilian University of Munich / UniBW Munich**

- Designed and eveluated UX materials and web/app prototypes promoting secure online behavior

11/2023 - 03/2024 **Bachelor Thesis – Ludwig Maximilian University of Munich**

- Designed and evaluated face interfaces for human-robot interaction (focus on perception, empathy, and usability)
- Conducted field studies and usability tests to assess design effectiveness

02/2023 - 06/2023 **Fundamentals of Interaction Design (UX) – University of Technology Sydney**

- User testing, field study, wireframing, prototyping of our own interactive product idea

Skills

- **UX / UI / XD Design** (Figma, Miro, Canva)
- **Web & App Development** (HTML, CSS, JS, Kotlin, Java, SQL, GitHub, Claude Code)
- **Graphic & Media Design / Animation** (Adobe CC, Gimp, Krita, AE, Davinci Resolve, Maya)
- **Corporate & AI Skills** (AI-assisted workflows & prompt engineering, MS Office, Confluence, Jira)

Languages

- German: Native (C2)
- English: Fluent (C1)
- French: Basics (B1)
